

**GALVESTON
RAILROAD MUSEUM**

Mentor Requirement

Young Ingenuity Program

A museum priority is to create a safe secure environment for all our outreach programs. Volunteer screening for working with children helps to safeguard these vulnerable individuals from potential harm or exploitation.

To comply with museum policy, all mentors are asked to participate in a short 30 minute program that you will find enlightening and educational. Once completed, you will be issued a certificate that we will keep on file for the year. You may download the certificate for your personal use.

Please use the link below to access the program.

Thank you for your volunteerism and for complying with museum policy.
